

CERAMIC ICONS

Unconditional Guarantee

We have been asked over the years if we could make icons that could be used outside without fading. Until recently the answer had always been no. After researching the possibilities we can now say YES.

The process starts with a high quality digital image that is then printed with ceramic colors that are fired at very high temperatures (colors will not fade and the icon finish will never deteriorate). We will stand behind the quality of these icons with a **Guarantee that is unbeatable: it's Unconditional and Eternal.** We guarantee that the icons will not fade or deteriorate. If you have a problem with our icon, or a problem with something you can't control (like vandalism), we'll replace it — free of charge. Any damage. Any defect. Any reason.
